

## OUT PATIENT REHAB SERVICES PHYSICAL THERAPY

We specialize in the rehabilitation of orthopedic injuries, post operative orthopedic rehabilitation, balance impairment, vestibular rehabilitation, gait training, and functional losses that are a result of physical or neurological insult.

Utilizing therapeutic exercises, patient education, manual therapy, and modalities, we work to restore a person's full functional potential according to their specific needs..

### What is Physical Therapy?

**Physical Therapy (PT) is a structured rehabilitative program designed to meet individuals' specific needs in restoring physical function.**

### I Need Physical Therapy, How Do I Get Started?

**Contact your physician and ask for a referral for physical Therapy. You may also seek services without a referral. However, some insurance companies required referrals for reimbursement.**

### Areas We Specialize In

- **General Weakness**
- **Difficulty with Balance**
- **Stroke**
- **Knee Replacement / Injury**
- **Hip Fractures/Replacement**
- **Planter Fasciitis**
- **Pain Management**

**Just to Name a Few**
